The 2018 CIO Agenda: Powerful Practices to Help You Master the New Job of the CIO

The "job" of CIO must grow and evolve as digital business spreads, and disruptive technologies, including smart machines and advanced analytics, reach critical mass. The complication is, for many CIOs, the path forward is unclear. What powerful practices should CIOs and IT leaders adopt to position themselves and their organizations to face the coming challenges and opportunities? This session will provide an answer, helping CIOs plan their 2018 leadership agenda.

The Top 10 Strategic Technology Trends for 2018

Strategic technology trends have significant disruptive potential over the next five years. The top trends for 2018 underpin the digital platform and set the stage for business innovation. Companies must examine their business impacts and adjust business models and operations appropriately or risk losing competitive advantage to those who do. These are trends that IT cannot afford to ignore.
